

HELLO! I'M Masrur

Blockchain Dev

Brand Designer

Profile ↗

Obsessively curious full-stack engineer and blockchain architect blending minimal UI design guidelines, modern tokenomics, and decentralized ledger capabilities. Focused heavily on designing hyper-functional, secure systems that streamline production workflows. Proven capability in bringing structural tech frameworks from whiteboard whitepapers to functional network deployment.

Skills

- Full-Stack Web Architectures
- Blockchain & Tokenomics
- Smart Contract Systems
- TON & BNB Chain Deployment
- Supabase & Firebase Systems
- Minimalist UI/UX Concepting
- Technical Skill Mentorship
- Brand Design

Proficiencies
